

Comrades ,

On behalf of NIPSA Northern Ireland Public Service Alliance Trade Union and particularly my own Branch 730 Belfast Health Service Trust I would like to extend fraternal greetings and solidarity greetings to the doctors at Ottakring hospital in Vienna.

We wish you success in your a one hour warning strike on June 30th in protest at staff shortages.

In N.I. we are also engaged in IA around the issue of safe staffing, we therefore fully support the demands for more staff and an easing of the workload. We believe that all hospital staff should act together to secure the funding, wages and staff levels required to run an effective service.

UP THE WORKERS

Tanya Killen
